★★★★★★★★★★★★★★★★

VODKA TRIVIA

Poland is the fourth largest producer of vodka in the world (behind Russia, USA and Ukraine).

★★★

Vodka is first mentioned in historical records in 1405. The first reference to vodka was found in documents of the court in Sandomierz.

★★★

The production of „booze” in Poland underwent a rapid development in the 16th century and the export of vodka also began then. One of the main production and export centres was Gdańsk.

★★★

In 1782, the Baczewski Family started to produce vodka using innovative methods. Soon, the Baczewski Family became one of the largest manufacturers of alcohol in Europe. They have retained their renown to this day.

★★★

Goldwasser is a root and herbball liquor, based on a mixture of 20 different herbs and spices, created in the 16th century by Ambrose Vermollen, a Dutchborn alchemist living in Gdańsk.

★★★

The most prominent characteristic of Goldwasser are ultra-thin flakes of 22/23 karat gold suspended in it.

★★★

Goldwasser was a favourite drink of king Luis XIV of France, the Russian tsar Peter I the Great and the tsarina Catherine the Great, among many others.
